

Quality Bulletin

Published by Supplier Quality Assurance Department

Dear Suppliers,

Please be informed that Instruction No 150 "Requirements for Suppliers of WSK "PZL-Rzeszow" S.A." was changed. New revision (D) was issued in 2nd September 2010.

The main changes are introduced into:

- Paragraph 7.4.3 – Samples for testing from Suppliers who are not LCS/MCS approved,
- Paragraph 7.5.4 – Necessity of performing the records of provided material and borrowed tooling/gauges
- Paragraph 8.2.4.1 – Metrics issuing

What is more, attachments no 4 and 10 were changed and attachments no 11, 12, 13 and 14 were added.

Notice:

Attachment No 10 (NODQE) was changed in order to robust escape evaluation.

When Supplier receives an escape, he is obligated to undertake a corrective action. This action shall be described in detail including responsible person and date of its realization. The evidences of introduced corrective action shall be added to NODQE Form (e.g. changes to MOS or processes, Training Members Lists etc.)

Instruction is available on website:
