

Dear Suppliers we come to you with quality bulletin.

With reference to the permanent improving communication between Supplier and WSK, we would send you this newsletter.

In that way we would forward to you information concerning quality processes, interpretation of requirements and drawing notices and also the most popular findings during Quality audits performed at Supplier.

Information to each bulletin will be developed by employees of Supplier Quality Assurance Department based on your suggestions and questions.

In the first beginning we would like to remind some information concerning instruction 150:

- That document includes the requirements for Supplier of WSK "PZL – Rzeszów" S.A. and makes up the supplement to AS 9100 or ISO 9001 and/or ASQR-01 requirements.

In the following issues the standardization is the main object of instruction 150:

- how to get a disposition for nonconformance material delivered by WSK
- how to contact to SQA office in order to obtain a respond on questions (e.g. how to interpret the requirements of drawing, documentation)
- request concerning the possibility of receiving parts with uncompleted process,
- what to do when approval of special processes and NDT, ESA, MOS of critical parts is required ,
- FAIR documentation and CofC

Instruction 150 is available on web side:
