

# Quality Bulletin

Published by Supplier Quality Assurance Department

## Dear Suppliers,

Organization shall continuously improve the effectiveness of its Quality Management System (QMS) also by using audit findings that shall be a trigger to implement corrective actions accordingly.

Frequently the dates for implementation of corrective actions (C/A) that are required after WSK “PZL Rzeszów” second party audits are overdue.

## Please notice

Suppliers that do not provide C/A on time in spite of reminders will be blocked in SAP system that causes lack of possibility for placing new PO to such suppliers. Cooperation renewal will be possible only after providing acceptable C/A and commitment of top management to improve cooperation.

Permanent lack of responses for audit findings will result with informing the Certification Bodies that are responsible for auditing of Quality System in such Suppliers.
