

Quality Bulletin

GO BEYOND

Published by Supplier Quality Assurance Department

Dear Suppliers,

In reference to reported issues with eZN portal we would like to share below information regarding use of recommended web browser.

The main Web Browser for Supplier Portal P&W functionalities is Internet Explorer min 7.0.

When you have successfully logged in to Supplier Portal and you still have problems with using eZN functionality properly you need to use second supported by Supplier Portal browser Google Chrome (highest available version).

Before reporting a problem to P&W Poland Sites, please make sure that your computer and browser settings are correct and there are no blocks introduced by your local IT department.

In a case of any questions please send your reply to received bulletin email address.

SQA Group of P&W Poland Company
